

As a courtesy, below is a list of potential contractors that provide fuel mitigation services in the tri-county area. These contractors have provided their required certificate of insurance and references to TCFSWG. Their services and equipment vary; some contractors are better suited for smaller (less than 3 acres) or larger projects (more than 8 acres), while some specialize in particular treatment methods.

The selection of a contractor is entirely within your discretion. Selecting a contractor not on this list does not preclude you from being eligible for the grant cost-sharing program. Please refer to the TCFSWG **Property Owner's Checklist** on our website (<https://tcfswg.org>) for detailed information on the cost-sharing project process.

Contractor Contact Information	Treatment Methods Provided							
	Cut, Slash, Prune	Hand Pile	Burn Piles	Green Burn	Haul Away	Masticate	Chip	Misc
